Denver, Colorado 80222-1530

Gentlemen:

The Department of Energy, Rocky Flats Field Office is forwarding the final Work Plan for the Chemically Enhanced Steam Stripping of Radionuclides in Rocky Flats Plant Soil Treatability Study for your review and comment. This proposed work will evaluate the usage of thermally enhanced aqueous extraction processing of soils for the removal of radionuclides.

We are requesting comments by May 27, 1994 in order that we might incorporate those comments and proceed with this study. Please contact Norma Castaneda at extension 4226 or Michael Harris at extension 4189 if you should have any additional questions regarding this transmittal.

Sincerely,

Jessie Roberson
Acting Assistant Manager for
Environmental Restoration
